

Public questionnaire for the 2019 Evaluation of the Research & Development and Specialisation Block Exemption Regulations

Fields marked with * are mandatory.

Introduction

Background and aim of the public questionnaire

Article 101(1) of the Treaty on the Functioning of the European Union ('the Treaty') prohibits agreements between undertakings that restrict competition unless they generate efficiencies in line with Article 101(3) of the Treaty. Agreements generate efficiencies in line with Article 101(3) of the Treaty if they contribute to improving the production or distribution of goods or services, or to promoting technical or economic progress, while allowing consumers a fair share of the resulting benefits; they only impose restrictions that are indispensable for the attainment of these objectives and do not eliminate competition in respect of a substantial part of the product in question. The prohibition contained in Article 101(1) of the Treaty covers, amongst others, agreements entered into between actual or potential competitors (so-called 'horizontal agreements').

Commission Regulations (EU) No 1217/2010 (Research & Development Block Exemption Regulation - 'R&D BER') and 1218/2010 (Specialisation Block Exemption Regulation - 'Specialisation BER'), together referred to as the 'Horizontal block exemption regulations' (or 'HBERs'), exempt from the prohibition contained in Article 101(1) of the Treaty those R&D and specialisation agreements for which it can be assumed with sufficient certainty that they satisfy the conditions of Article 101(3) of the Treaty. The Commission Guidelines on horizontal cooperation agreements ('HGL') provide binding guidance on the Commission for the interpretation of the HBERs and for the application of Article 101 of the Treaty to other horizontal agreements. The HBERs will expire on 31 December 2022.

This public questionnaire represents one of the methods of information gathering in the evaluation of the HBERs, together with the HGL, which was launched on 5 September 2019. The purpose of this questionnaire is to collect views and evidence from the public and stakeholders on how the current rules work for them. The Commission will evaluate the current HBERs, together with the HGL, based on the following criteria:

- Effectiveness (Have the objectives been met?),
- Efficiency (Were the costs involved proportionate to the benefits?),
- Relevance (Do the objectives still match current needs or problems?),
- Coherence (Does the policy complement other actions or are there contradictions?), and
- EU added value (Did EU action provide clear added value?).

The collected information will provide part of the evidence base for determining whether the Commission should let the HBERs lapse, prolong their duration without changing them or prolong them in a revised form, together with the accompanying HGL.

The responses to this public consultation will be analysed and the summary of the main points and conclusions will be made public on the Commission's central public consultations page. **Please note that your replies will also become public as a whole, see below under Section 'Privacy and Confidentiality'.**

Nothing in this questionnaire may be interpreted as stating an official position of the Commission.

Submission of your contribution

You are invited to reply to this public consultation by answering the questionnaire online. To facilitate the analysis of your replies, we would kindly ask you to keep your answers concise and to the point. You may include documents and URLs for relevant online content in your replies.

While the questionnaire contains several questions of a more general nature, notably Section 4 and 5 also contain questions that are aimed at respondents with more specialised knowledge of the HBERs and HGL. We invite all respondents to provide answers to the questionnaire. In case a question does not apply to you or you do not know the answer, please choose the field 'Do not know' or 'Not applicable'.

For your information, you have the option of saving your questionnaire as a 'draft' and finalising your response later. In order to do this you have to click on 'Save as Draft' and save the new link that you will receive from the EUSurvey tool on your computer. Please note that without this new link you will not be able to access the draft again.

The questionnaire is available in English, French and German. You may however respond in any EU language.

In case of questions, you can contact us via the following functional mailbox: COMP-HBERS-REVIEW@ec.europa.eu.

In case of technical problem, please contact the Commission's [CENTRAL HELPDESK](#).

Duration of the consultation

The consultation on this questionnaire will be open for 14 weeks, from 6/11/2019 to 12/2/2020.

Privacy and confidentiality

*** 1.1 Publication privacy settings**

The Commission will publish the responses to this public consultation. You can choose whether you would like your details to be made public or to remain anonymous.

☒ **Anonymous**

Only your type of respondent, country of origin and contribution will be published. All other personal details (name, organisation name and size, transparency register number) will not be published.

☒ **Public**

Your personal details (name, organisation name and size, transparency register number, country of origin) will be published with your contribution.

Please note that your replies and any attachments you may submit will be published in their entirety even if you chose 'Anonymous'. Therefore, please remove from your contribution any information that you will not want to be published.

4 Effectiveness (Have the objectives of the current HBERs and HGL been met?)

In this section, we would like to have your opinion on the extent to which the HBERs and the HGL have met their objectives.

The **purpose of the EU competition rules** is to ensure that competition is not distorted to the detriment of the public interest, individual undertakings and consumers. In line with this objective, the Commission's policy is to leave companies maximum flexibility when concluding horizontal co-operation agreements in order to increase the competitiveness of the European economy while at the same time promoting competition for the benefit of European businesses and consumers.

The **purpose of the HBERs and the HGL** is to make it easier for undertakings to cooperate in ways which are economically desirable and without adverse effect from the point of view of competition policy. The specific objectives of the HBERs and HGL are to ensure effective protection of competition and providing adequate legal certainty for undertakings.

* 4.1 In your view, do you perceive that the HBERs and the HGL have contributed to promoting competition in the EU?

- ☒ Yes
- ☐ Yes, but they have contributed only to a certain extent or only in specific sectors
- ☐ They were neutral
- ☐ No, they have negatively affected competition in the EU
- ☐ Don't know

* 4.2 Please explain your reply, distinguishing between sectors where relevant: (1500 characters max).

Text of 1 to 1500 characters will be accepted

The HBERs have notably fostered innovation by providing clarity and legal security for R&D and specialisation agreements.

The HGL provide helpful guidance on the application of Article 101(1) TFEU but the European Commission could improve these guidelines.

Two main areas for improvement could be identified:

First, the concept of infringement "by object" could be clarified. In this respect, the guidance provided by the Advocate General Bobek in case C-228/18 (notably the two-step analysis put forward at § 42 and 43 of its opinion) should be reflected in the HGL.

Second, the European Commission could shed light on the "hub and spoke" concept.

To date, only the UK courts have issued decisions on this matter. The latter have ruled that "hub and spoke" practices could only be caught by antitrust rules if an objective criterion is met (i.e. the transmission of sensitive information) AND if two subjective criteria are proven ((i) retailer A discloses to supplier B sensitive information "in circumstances where A may be taken to intend that B will make use of that information to influence market conditions by passing that information to retailer C" and (ii) "C may be taken to know the circumstances in which the information was disclosed by A to B".

For the sake of clarity, and to enhance legal certainty, such useful guidance - insisting on the difference between "intent" of retailer A and "knowledge" of retailer C - could be added to the HGL.

Legal certainty provided by the HBERs and the HGL

* 4.3 In your view, have the R&D BER and Section 3 of the HGL on research and development agreements provided sufficient legal certainty on R&D agreements companies can conclude without the risk of infringing competition law?

- ☐ Yes
- ☒ No
- ☐ Do not know

* 4.4 Please explain your reply

Text of 1 to 1500 characters will be accepted

The French version of Article 3(4) of the R&D BER makes a reference to the adjective "déterminant" while Article 3(3) refers to the adjective "indispensable". The English version of these two Articles makes also a reference to the concept of "indispensability".

While "déterminant" and "indispensable" have a close meaning, they are not totally similar.

Given its importance, the European Commission should replace the term "déterminant" in the French version by "indispensable".

* 4.5 In your view, does the R&D BER increase legal certainty compared with a situation where the R&D BER would not exist but only the HGL applied?

- ☒ Yes

* 4.6 Please explain your reply

In this section we would like to have your opinion on the extent to which the HGL have provided sufficient legal certainty on horizontal cooperation agreements companies can undertake without the risk of infringing competition law. Please specify your answer according to the different types of horizontal agreements.

* 4.11 In your view, have the HGL provided sufficient legal certainty on agreements involving **information exchange** in the sense of Section 2 of the HGL?

- ☐ Yes
- ☒ No
- ☐ Do not know

* 4.12 Please explain your reply

Text of 1 to 1500 characters will be accepted

With respect to information exchanges, it appears from § 72-74 of the HGL that only information exchanges on FUTURE parameters (such as prices) can qualify as a restriction by object (see wording of the HGL: "Exchanging information on companies' individualised INTENTIONS concerning FUTURE conduct", "Information exchanges between competitors of individualised data regarding INTENDED FUTURE prices or quantities should therefore be considered a restriction of competition by object.", "In addition, private exchanges between competitors of their individualised INTENTIONS regarding FUTURE prices or quantities would normally be considered and fined as cartels").

Therefore, it should be specified in the HGL that information exchanges on PAST parameters cannot qualify as a restriction by object.

Identification of pro-competitive horizontal agreements

The R&D BER and the Specialisation BER set out a number of conditions that R&D and specialisation agreements need to meet in order to benefit from the block exemption. The HGL provide additional guidance on how to interpret these conditions. These conditions have been defined with the purpose to give exemption only to those agreements for which it can be assumed with sufficient certainty that they generate efficiencies that outweigh, in line with Article 101(3) of the Treaty, the harm caused by the restriction of competition.

Based on your experience, have the following provisions in the **R&D BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

* 4.23 The list of definitions that apply for R&D agreements that can benefit from exemption in Article 1 of the R&D BER

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.25 The conditions for exemption listed in Article 3 of the R&D BER, regarding, for instance, access to the final results of the R&D, access to pre-existing know-how and joint exploitation.

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.27 The absence of a market share threshold for non-competing undertakings, the market share threshold of 25% for competing undertakings and the application thereof provided for in Articles 4 and 7 of the R&D BER

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.29 The limits regarding the duration of the exemption provided for in Article 4

- ☐ Yes
- ☐ No
- ☒ Do not know

*

4.31 The list identified in Article 5 of the R&D BER which make the exemption not available for agreements that have as their object certain restrictions or limitations ('hardcore restrictions')

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.33 The list of obligations included in agreements to which the exemption does not apply ('excluded restrictions'), identified in Article 6 of the R&D BER

- ☐ Yes
- ☐ No
- ☒ Do not know

Based on your experience, have the following provisions in the **Specialisation BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

* 4.35 The definitions that apply for the purposes of the Specialisation BER, in Article 1

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.37 The explanations on the type of specialisation agreements to which the exemption applies, provided by Article 2 of the Specialisation BER

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.39 The market share threshold of 20% and its application, provided for in Articles 3 and 5 of the Specialisation BER

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.41 The list identified in Article 4 of the Specialisation BER which make the exemption not available for agreements that have as their object price fixing, certain limitations of output or sales or market or customer allocation ('hardcore restrictions')

- ☐ Yes
- ☐ No
- ☒ Do not know

4.43 Based on your experience, are there other elements, besides those listed in the previous questions that should have been clarified, added, or removed to improve the guidance given by the BERs?

Text of 1 to 3000 characters will be accepted

* 4.44 Based on your experience, are there other types of horizontal cooperation agreements outside those identified in the R&D and Specialisation BERs which would satisfy the conditions of Article 101(3) of the Treaty?

- ☐ Yes
☐ No
☒ Do not know

* 4.46 Based on your experience, have the BERs and the HGL had any impacts that were not expected or not intended?

- ☐ Yes
☐ No
☒ Do not know

5 Efficiency (were the costs involved proportionate to the benefits?)

In this section, we would like to have your view concerning the efficiency of the HBERs and the HGL. In your view, do you consider that the costs (for example, legal fees, delays in implementation) of analysing the conditions and applying these instruments is proportionate to the benefits (for example, faster self assessment) of having the rules in place?

Costs

* 5.1 Please describe the different types of costs of applying the current R&D and Specialisation BERs; and the HGL

Text of 1 to 1500 characters will be accepted

The current HBERs and HGL might be difficult to understand for people who are not familiar with competition rules. In particular, the role played by the HBERs in the whole legal structure could be further explained. In other words, it could be stressed that if an agreement doesn't meet the criteria of the HBER, it does not necessarily mean that it is anticompetitive as an individual assessment should then be conducted (and the individual agreement could be justified under 101(3) TFEU).

Finally, to provide a quicker self assessment, the HGL could make references to more case-law and hyperlinks to the case-law could be directly included in the guidelines.

5.2 Please explain whether you can express the above costs in money terms

5.3 Please provide an estimate of your quantifiable costs both in terms of value (in EUR) and as a percentage of your annual turnover (or, in the case of a business association, of the annual turnover of the members you are representing)

5.4 Please explain how you calculate these costs

Text of 1 to 1500 characters will be accepted

* 5.5 In your view, how have the costs generated by the application of the R&D or the Specialisation BER or the HGL evolved **compared with the previous legislative framework** (Reg. 2659/2000 on R&D, Reg. 2658/2000 on Specialisation agreements and the accompanying horizontal guidelines)?

- ☐ Costs increased
- ☐ Costs decreased
- ☒ Do not know

In your view, would the costs of ensuring compliance of your horizontal cooperation agreements (or the agreements of your members) with Article 101 of the Treaty would be different **if the current HBERs were not in place but only the HGL applied?**

* 5.8 Were the **R&D BER** not in place, the cost of ensuring compliance

N/A

Benefits vs. costs

In your view, does the application of the R&D and Specialisation BERs and the HGL generate costs that are proportionate to the benefits they bring (or, in the case of a business association, the benefits for the members you are representing)?

* 5.15 Regarding the **R&D BER**

- ☐ Costs are proportionate to benefits
- ☐ Costs are not proportionate to benefits

6 Relevance (do the objectives still match the needs or problems?)

In this section, we would like to understand if the objectives of the HBERs and the HGL are still up-to-date considering the developments that have taken place since their publication.

6.1 Please identify major trends and developments (for example legal, economic, political) that, based on your experience, have affected the application of the BERs and HGL. Please provide a short explanation with concrete examples in case you consider that (parts of) the HBERs or HGL do not sufficiently allow to address them

1000 characters max. for each row

	Major trends/changes	Articles of the HBERs and/or recitals of the HGL	Short explanation/concrete examples
1	distribution / selling platforms (which introduces a third party between the supplier and the customer)	Section 2 of the HGL	As mentioned above (question 4.2), there is a need to clarify the issue of tripartite discussions ("hub and spoke"). This has become an urgent issue in our economy characterized by the presence of third parties' platforms / intermediaries

Do you think that it is still relevant to have the current HBERs and HGL in light of major trends or developments listed above?

* 6.2 The R&D BER and Section 3 of the HGL are

- ☒ Still relevant
- ☐ No longer relevant
- ☐ Do not know

* 6.3 Please explain your reply

The R&D BER and Section 3 of the HGL are indeed redundant to some extent. However, there is also redundancy between Regulation 1/2003 and the HGL for instance and yet, both texts are useful. Similarly, both the R&D BER and the HGL are useful: (i) the BER sets out the rules in a clear and concise manner and this text has a direct and immediate effect while (ii) the HGL (which does not have the same legal force) further explains these rules.

* 6.4 The Specialisation BER and Section 4 of the HGL are

These rules should however be further explained notably with respect to the "by object" infringement (see above our answer to question 4.12 and 4.2).

* 6.8 Section 5 of the HGL on purchasing agreements is

The potential restrictive effects of a purchasing agreement would be more difficult to assess in the absence of Section 5 of the HGL.

* 6.10 Section 6 of the HGL on commercialisation agreements is

The potential restrictive effects of a standardisation agreement would be more difficult to assess in the absence of Section 7 of the HGL.

7 Coherence (Does the policy complement other actions or are there contradictions?)

* 7.1 In your view, are the HBERs and the HGL coherent with other instruments and /or case law that provide(s) guidance on the interpretation of Article 101 of the Treaty (e.g., other Block Exemption Regulations, the Vertical Guidelines and the Article 101(3) Guidelines)?

- ☒ Yes

- ☐ No
- ☐ Do not know

* 7.2 Please explain

As mentioned above, the role played by the HBERs in the whole legal structure could be further explained. In other words, it could be stressed that the HGL provide some clarification on Article 101 TFEU and on the HBERs.

More importantly, it should be emphasized that if an agreement doesn't meet the criteria of the HBERs, it does not necessarily mean that it is anticompetitive as an individual assessment should then be conducted (and the individual agreement could be justified under 101(3) TFEU).

* 7.3 In your view, are the HBERs and the HGL coherent with other existing or upcoming legislation or policies at EU or national level?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 7.4 Please explain

Text of 1 to 3000 characters will be accepted

To our knowledge, there is no inconsistency.

8 EU added value (Did EU action provide clear added value?)

In this section, we would like to understand if the HBERs and the HGL have had added value. In the absence of the HBERs and the HGL, undertakings would have had to self-assess their horizontal cooperation agreement with the help of the remaining legal framework. This would include for instance the case law of the EU and national courts, the Article 101(3) Guidelines, the enforcement practice of the Commission and national competition authorities, as well as other guidance at EU and national level.

Please indicate whether, in your view, the HBERs and the HGL have had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty

* 8.1 Has the R&D BER had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

As mentioned above, Essilor considers that the HGL provide helpful guidance on the application of Article 101(1) TFEU but the European Commission could improve these guidelines (see answers to question 4.2 and 4.12).
