

Public questionnaire for the 2019 Evaluation of the Research & Development and Specialisation Block Exemption Regulations

Fields marked with * are mandatory.

1

Introduction

Background and aim of the public questionnaire

Article 101(1) of the Treaty on the Functioning of the European Union ('the Treaty') prohibits agreements between undertakings that restrict competition unless they generate efficiencies in line with Article 101(3) of the Treaty. Agreements generate efficiencies in line with Article 101(3) of the Treaty if they contribute to improving the production or distribution of goods or services, or to promoting technical or economic progress, while allowing consumers a fair share of the resulting benefits; they only impose restrictions that are indispensable for the attainment of these objectives and do not eliminate competition in respect of a substantial part of the product in question. The prohibition contained in Article 101(1) of the Treaty covers, amongst others, agreements entered into between actual or potential competitors (so-called 'horizontal agreements').

Commission Regulations (EU) No 1217/2010 (Research & Development Block Exemption Regulation - 'R&D BER') and 1218/2010 (Specialisation Block Exemption Regulation - 'Specialisation BER'), together referred to as the 'Horizontal block exemption regulations' (or 'HBERs'), exempt from the prohibition contained in Article 101(1) of the Treaty those R&D and specialisation agreements for which it can be assumed with sufficient certainty that they satisfy the conditions of Article 101(3) of the Treaty. The Commission Guidelines on horizontal cooperation agreements ('HGL') provide binding guidance on the Commission for the interpretation of the HBERs and for the application of Article 101 of the Treaty to other horizontal agreements. The HBERs will expire on 31 December 2022.

This public questionnaire represents one of the methods of information gathering in the evaluation of the HBERs, together with the HGL, which was launched on 5 September 2019. The purpose of this questionnaire is to collect views and evidence from the public and stakeholders on how the current rules work for them. The Commission will evaluate the current HBERs, together with the HGL, based on the following criteria:

- Effectiveness (Have the objectives been met?),
- Efficiency (Were the costs involved proportionate to the benefits?),
- Relevance (Do the objectives still match current needs or problems?),
- Coherence (Does the policy complement other actions or are there contradictions?), and
- EU added value (Did EU action provide clear added value?).

The collected information will provide part of the evidence base for determining whether the Commission should let the HBERs lapse, prolong their duration without changing them or prolong them in a revised form, together with the accompanying HGL.

The responses to this public consultation will be analysed and the summary of the main points and conclusions will be made public on the Commission's central public consultations page. **Please note that your replies will also become public as a whole, see below under Section 'Privacy and Confidentiality'.**

Nothing in this questionnaire may be interpreted as stating an official position of the Commission.

Submission of your contribution

You are invited to reply to this public consultation by answering the questionnaire online. To facilitate the analysis of your replies, we would kindly ask you to keep your answers concise and to the point. You may include documents and URLs for relevant online content in your replies.

While the questionnaire contains several questions of a more general nature, notably Section 4 and 5 also contain questions that are aimed at respondents with more specialised knowledge of the HBERs and HGL. We invite all respondents to provide answers to the questionnaire. In case a question does not apply to you or you do not know the answer, please choose the field 'Do not know' or 'Not applicable'.

For your information, you have the option of saving your questionnaire as a 'draft' and finalising your response later. In order to do this you have to click on 'Save as Draft' and save the new link that you will receive from the EUSurvey tool on your computer. Please note that without this new link you will not be able to access the draft again.

The questionnaire is available in English, French and German. You may however respond in any EU language.

In case of questions, you can contact us via the following functional mailbox: COMP-HBERS-REVIEW@ec.europa.eu.

In case of technical problem, please contact the Commission's [CENTRAL HELPDESK](#).

Duration of the consultation

The consultation on this questionnaire will be open for 14 weeks, from 6/11/2019 to 12/2/2020.

Privacy and confidentiality

*** 1.1 Publication privacy settings**

The Commission will publish the responses to this public consultation. You can choose whether you would like your details to be made public or to remain anonymous.

☒ **Anonymous**

Only your type of respondent, country of origin and contribution will be published. All other personal details (name, organisation name and size, transparency register number) will not be published.

☒ **Public**

Your personal details (name, organisation name and size, transparency register number, country of origin) will be published with your contribution.

Please note that your replies and any attachments you may submit will be published in their entirety even if you chose 'Anonymous'. Therefore, please remove from your contribution any information that you will not want to be published.

☒ 1.2 I agree with the [personal data protection provisions](#)

2 About you

* 2.1 Language of my contribution

- ☐ Bulgarian
- ☐ Croatian
- ☐ Czech
- ☐ Danish
- ☐ Dutch
- ☒ English
- ☐ Estonian
- ☐ Finnish
- ☐ French
- ☐ Gaelic
- ☐ German
- ☐ Greek
- ☐ Hungarian
- ☐ Italian
- ☐ Latvian
- ☐ Lithuanian
- ☐ Maltese
- ☐ Polish
- ☐ Portuguese
- ☐ Romanian
- ☐ Slovak
- ☐ Slovenian
- ☐ Spanish
- ☐ Swedish

* 2.2 First name

Nicole

* 2.3 Surname

MARÉCHAL

* 2.4 Email (this won't be published)

* 2.5 I am giving my contribution as

- ☐ Academic/research institution
- ☒ Business association
- ☐ Company/business organisation
- ☐ Consumer organisation
- ☐ EU citizen
- ☐ Environmental organisation
- ☐ Non-EU citizen
- ☐ Non-governmental organisation (NGO)
- ☐ Public authority
- ☐ Trade union
- ☐ Other

2.6 Other - please specify

If you chose "Other", please specify whether you are contributing as lawyer/law firm, economic consultancy or something else:

* 2.7 Organisation name

255 character(s) maximum

Cefic - The European Chemical Industry Council

If available, please provide your ID number of the [EU Transparency Register](#). If your organisation is not registered, we invite you to register, although it is not compulsory to be registered to reply to this consultation.

2.8 Transparency register number

255 character(s) maximum

Check if your organisation is on the [transparency register](#). It's a voluntary database for organisations seeking to influence EU decision-making.

6487914232390

* 2.10 Organisation size

- ☐ Micro (1 to 9 employees)
- ☐ Small (10 to 49 employees)
- ☒ Medium (50 to 249 employees)
- ☐ Large (250 or more)

* 2.11 The main activities of your organisation:

Text of 1 to 250 characters will be accepted

Cefic is the representative organisation of the chemical industry in Europe

*2.12 Please describe the sectors where your organisation or your members are conducting business:

Text of 1 to 250 characters will be accepted

Cefic is representing the manufacturers of a wide variety of chemical substances, products and sectors.

*2.15 Country of origin

Please add your country of origin, or that of your organisation.

3 General Questions on the Horizontal Block Exemption Regulations and the Guidelines on horizontal cooperation agreements

- * 3.6 How often do you consult the **R&D BER** for guidance on a horizontal cooperation agreement?
- ☒ Frequently (several times per year)
 - ☐ Occasionally (once or twice per year)
 - ☐ Never
- * 3.7 How often do you consult the **Specialisation BER** for guidance on a horizontal cooperation agreement?
- ☒ Frequently (several times per year)
 - ☐ Occasionally (once or twice per year)
 - ☐ Never
- * 3.8 How often do you consult the **HGL** for guidance on a horizontal cooperation agreement?
- ☒ Frequently (several times per year)
 - ☐ Occasionally (once or twice per year)
 - ☐ Never

4 Effectiveness (Have the objectives of the current HBERs and HGL been met?)

In this section, we would like to have your opinion on the extent to which the HBERs and the HGL have met their objectives.

The **purpose of the EU competition rules** is to ensure that competition is not distorted to the detriment of the public interest, individual undertakings and consumers. In line with this objective, the Commission's policy is to leave companies maximum flexibility when concluding horizontal co-operation agreements in order to increase the competitiveness of the European economy while at the same time promoting competition for the benefit of European businesses and consumers.

The **purpose of the HBERs and the HGL** is to make it easier for undertakings to cooperate in ways which are economically desirable and without adverse effect from the point of view of competition policy. The specific objectives of the HBERs and HGL are to ensure effective protection of competition and providing adequate legal certainty for undertakings.

* 4.1 In your view, do you perceive that the HBERs and the HGL have contributed to promoting competition in the EU?

- ☒ Yes
- ☐ Yes, but they have contributed only to a certain extent or only in specific sectors
- ☐ They were neutral
- ☐ No, they have negatively affected competition in the EU
- ☐ Don't know

* 4.2 Please explain your reply, distinguishing between sectors where relevant: (1500 characters max.)

Text of 1 to 1500 characters will be accepted

As a package these rules are quite helpful to guide companies and trade associations in their dealing with horizontal cooperation. Even if the HBERs are sometimes quite straghtjacking. After all the package encourage and facilitate up to a certain point cooperation. It has been highlighted that for some companies it is an important aspect of their growth. In particular the R&D BER allows the collaboration of parties with complementary skills to develop products and technologies more effectively than alone. However, Cefic and its chemical companie members are also developing other types of cooperation than those covered by the rules e.g. consortia or benchmarking..

Legal certainty provided by the HBERs and the HGL

* 4.3 In your view, have the R&D BER and Section 3 of the HGL on research and development agreements provided sufficient legal certainty on R&D agreements companies can conclude without the risk of infringing competition law?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.4 Please explain your reply

Text of 1 to 1500 characters will be accepted

Ensuring that the terms of the R&D BER provides a strong basis for negotiation with third parties.

* 4.5 In your view, does the R&D BER increase legal certainty compared with a situation where the R&D BER would not exist but only the HGL applied?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.6 Please explain your reply

Text of 1 to 1500 characters will be accepted

Both sets of rules are complementary.

* 4.7 In your view, have the Specialisation BER and Section 4 of the HGL on production agreements provided sufficient legal certainty on production /specialisation agreements companies can conclude without the risk of infringing competition law?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.8 Please explain your reply

Text of 1 to 1500 characters will be accepted

BERs are always interesting as referring text for legal analysis.

* 4.9 In your view, does the Specialisation BER increase legal certainty compared with a situation where the Specialisation BER would not exist but only the HGL applied?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.10 Please explain your reply

Text of 1 to 1500 characters will be accepted

BERs are always interesting as referring text for legal analysis.

In this section we would like to have your opinion on the extent to which the HGL have provided sufficient legal certainty on horizontal cooperation agreements companies can undertake without the risk of infringing competition law. Please specify your answer according to the different types of horizontal agreements.

* 4.11 In your view, have the HGL provided sufficient legal certainty on agreements involving **information exchange** in the sense of Section 2 of the HGL?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.12 Please explain your reply

Text of 1 to 1500 characters will be accepted

This section is definitively very useful for our chemical companies but also for the work of trade associations. However, any additional clarification would be helpful. See also 6.7.

* 4.13 In your view, have the HGL provided sufficient legal certainty on **purchasing agreements** in the sense of Section 5 of the HGL?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.14 Please explain your reply

Text of 1 to 1500 characters will be accepted

It is a good start that need to be expanded in the light of past investigations for which no final decision was adopted. It would be of interest if DG COMP could share its concerns that promoted the start of these investigations.

* 4.15 In your view, have the HGL provided sufficient legal certainty on **commercialisation agreements** in the sense of Section 6 of the HGL

- ☒ Yes
- ☐ No
- ☐ Do not know

* 4.16 Please explain your reply

Text of 1 to 1500 characters will be accepted

It is of interest for us.

- * 4.17 In your view, have the HGL provided sufficient legal certainty on **standardisation agreements** in the sense of Section 7 of the HGL

- ☒ Yes
☐ No
☐ Do not know

- * 4.18 Please explain your reply

Text of 1 to 1500 characters will be accepted

Quite of interest but it could be expanded with the new challenges and evolutions as standardization is increasingly suggested by authorities.

- * 4.19 In your view, have the HGL provided sufficient legal certainty on **other types of horizontal cooperation agreements** that are currently not specifically addressed in the HGL (for example sustainability agreements)

- ☒ Yes
☐ No
☐ Do not know

- * 4.20 Please explain your reply

Text of 1 to 1500 characters will be accepted

It could be of interest to expand to other forms of cooperation, e.g. registration consortia, also to respond to the new priorities / challenges of the Commission such as the Green deal, circular economy, and digitalization. Also to add analysis on cooperation "along the chain" even if there are both horizontal / vertical aspects to the cooperation. Benchmarking may also be analysed.

- * 4.21 In your view, are there other types of horizontal cooperation agreements outside those identified in the current HGL that should have been specifically addressed in order to increase legal certainty?

- ☒ Yes
☐ No
☐ Do not know

- * 4.22 If Yes, please list those types of agreements and explain your reasons

Text of 1 to 3000 characters will be accepted

See reply 4.20

Identification of pro-competitive horizontal agreements

The R&D BER and the Specialisation BER set out a number of conditions that R&D and specialisation agreements need to meet in order to benefit from the block exemption. The HGL provide additional guidance on how to interpret these conditions. These conditions have been defined with the purpose to give exemption only to those agreements for which it can be assumed with sufficient certainty that they generate efficiencies that outweigh, in line with Article 101(3) of the Treaty, the harm caused by the restriction of competition.

Based on your experience, have the following provisions in the **R&D BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

- * 4.23 The list of definitions that apply for R&D agreements that can benefit from exemption in Article 1 of the R&D BER
 - ☒ Yes
 - ☐ No
 - ☐ Do not know
- * 4.25 The conditions for exemption listed in Article 3 of the R&D BER, regarding, for instance, access to the final results of the R&D, access to pre-existing know-how and joint exploitation.
 - ☒ Yes
 - ☐ No
 - ☐ Do not know
- * 4.27 The absence of a market share threshold for non-competing undertakings, the market share threshold of 25% for competing undertakings and the application thereof provided for in Articles 4 and 7 of the R&D BER
 - ☐ Yes
 - ☒ No
 - ☐ Do not know
- * 4.28 If No, please explain what aspect of these provisions fails to correctly identify R&D agreements that are compliant with Article 101 of the Treaty

Text of 1 to 1500 characters will be accepted

YES for non-competing undertaking, BUT NO for competing undertakings as it is not so clear. In addition, determining the relevant product or technology market is not always straightforward.

- * 4.29 The limits regarding the duration of the exemption provided for in Article 4
 - ☒ Yes
 - ☐ No
 - ☐ Do not know
- * 4.31 The list identified in Article 5 of the R&D BER which make the exemption not available for agreements that have as their object certain restrictions or limitations ('hardcore restrictions')
 - ☒ Yes
 - ☐ No
 - ☐ Do not know
- * 4.33 The list of obligations included in agreements to which the exemption does not apply ('excluded restrictions'), identified in Article 6 of the R&D BER
 - ☒ Yes
 - ☐ No
 - ☐ Do not know

Based on your experience, have the following provisions in the **Specialisation BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

- * 4.35 The definitions that apply for the purposes of the Specialisation BER, in Article 1
 - ☐ Yes
 - ☐ No
 - ☒ Do not know
- * 4.37 The explanations on the type of specialisation agreements to which the exemption applies, provided by Article 2 of the Specialisation BER
 - ☐ Yes
 - ☐ No
 - ☒ Do not know
- * 4.39 The market share threshold of 20% and its application, provided for in Articles 3 and 5 of the Specialisation BER
 - ☐ Yes
 - ☐ No
 - ☒ Do not know
- * 4.41 The list identified in Article 4 of the Specialisation BER which make the exemption not available for agreements that have as their object price fixing, certain limitations of output or sales or market or customer allocation ('hardcore restrictions')
 - ☐ Yes
 - ☐ No
 - ☒ Do not know

4.43 Based on your experience, are there other elements, besides those listed in the previous questions that should have been clarified, added, or removed to improve the guidance given by the BERs?

Text of 1 to 3000 characters will be accepted

For the R&D BER there could be more clarity on the hardcore restrictions listed in the BER.

* 4.44 Based on your experience, are there other types of horizontal cooperation agreements outside those identified in the R&D and Specialisation BERs which would satisfy the conditions of Article 101(3) of the Treaty?

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.46 Based on your experience, have the BERs and the HGL had any impacts that were not expected or not intended?

- ☐ Yes
- ☒ No
- ☐ Do not know

5 Efficiency (were the costs involved proportionate to the benefits?)

In this section, we would like to have your view concerning the efficiency of the HBERs and the HGL. In your view, do you consider that the costs (for example, legal fees, delays in implementation) of analysing the conditions and applying these instruments is proportionate to the benefits (for example, faster self assessment) of having the rules in place?

Costs

* 5.1 Please describe the different types of costs of applying the current R&D and Specialisation BERs; and the HGL

Text of 1 to 1500 characters will be accepted

This is quite complicated to report at Cefic level. Companies may have different types of costs and this may vary from one type of company and contract to the others. Same for monetizing these costs.

5.2 Please explain whether you can express the above costs in money terms

Text of 1 to 1000 characters will be accepted

See 5.1.

5.3 Please provide an estimate of your quantifiable costs both in terms of value (in EUR) and as a percentage of your annual turnover (or, in the case of a business association, of the annual turnover of the members you are representing)

Text of 1 to 500 characters will be accepted

See 5.1.

5.4 Please explain how you calculate these costs

Text of 1 to 1500 characters will be accepted

See 5.1.

* 5.5 In your view, how have the costs generated by the application of the R&D or the Specialisation BER or the HGL evolved **compared with the previous legislative framework** (Reg. 2659/2000 on R&D, Reg. 2658/2000 on Specialisation agreements and the accompanying horizontal guidelines)?

- ☐ Costs increased
- ☐ Costs decreased
- ☒ Do not know

In your view, would the costs of ensuring compliance of your horizontal cooperation agreements (or the agreements of your members) with Article 101 of the Treaty would be different **if the current HBERs were not in place but only the HGL applied?**

* 5.8 Were the **R&D BER** not in place, the cost of ensuring compliance

- ☒ Would increase
- ☐ Would decrease
- ☐ Do not know

* 5.9 Please explain your reply

Text of 1 to 1500 characters will be accepted

See 5.1.

5.10 Please provide an estimate of the possible change in costs and explain your estimation

Text of 1 to 1500 characters will be accepted

See 5.1.

5.11 Were the **Specialisation BER** not in place, the cost of ensuring compliance

- ☒ Would increase
- ☐ Would decrease
- ☐ Do not know

* 5.12 Please explain your reply

Text of 1 to 1500 characters will be accepted

See 5.1.

5.13 Please provide an estimate of the possible change in costs and explain your estimation

Text of 1 to 1500 characters will be accepted

See 5.1.

Benefits

* 5.14 Please describe the benefits, if any, of having the R&D and Specialisation BERs; and the HGL

Text of 1 to 1500 characters will be accepted

Being guided, even if each of these texts may always be improved. To have an official document to be referred to and cited.

Benefits vs. costs

In your view, does the application of the R&D and Specialisation BERs and the HGL generate costs that are proportionate to the benefits they bring (or, in the case of a business association, the benefits for the members you are representing)?

* 5.15 Regarding the **R&D BER**

- ☐ Costs are proportionate to benefits
- ☐ Costs are not proportionate to benefits
- ☒ Do not know

* 5.17 Regarding the **Specialisation BER**

- ☐ Costs are proportionate to benefits
- ☐ Costs are not proportionate to benefits
- ☒ Do not know

* 5.19 Regarding the **HGL**

- ☐ Costs are proportionate to benefits
- ☐ Costs are not proportionate to benefits
- ☒ Do not know

6 Relevance (do the objectives still match the needs or problems?)

In this section, we would like to understand if the objectives of the HBERs and the HGL are still up-to-date considering the developments that have taken place since their publication.

6.1 Please identify major trends and developments (for example legal, economic, political) that, based on your experience, have affected the application of the BERs and HGL. Please provide a short explanation with concrete examples in case you consider that (parts of) the HBERs or HGL do not sufficiently allow to address them

Do you think that it is still relevant to have the current HBERs and HGL in light of major trends or developments listed above?

* 6.2 The R&D BER and Section 3 of the HGL are

- ☒ Still relevant
- ☐ No longer relevant
- ☐ Do not know

* 6.3 Please explain your reply

Text of 1 to 1500 characters will be accepted

The principles laid out in it are still reasonable and provide a good basis for negotiations for chemical companies.

* 6.4 The Specialisation BER and Section 4 of the HGL are

- ☐ Still relevant
- ☐ No longer relevant
- ☒ Do not know

* 6.6 Section 2 of the HGL on agreements involving information exchange is

- ☒ Still relevant
- ☐ No longer relevant
- ☐ Do not know

* 6.7 Please explain your reply

Text of 1 to 1500 characters will be accepted

It is of great interest and any additional clarification of the grey zone would be helpful. See also 4.12. In addition, it is sometimes difficult to draw the line between an 'intelligent adaptation to the anticipated conduct of competitors' (para 65) and an artificial reduction of uncertainty, leading to a situation where "practical cooperation" has replaced the "risks of competition". When a market is 'naturally' very transparent (few competitors, abundant publication sharing frequent detailed market/pricing information, ...), it is more difficult to make the analysis. An example of guidance that could be incorporated is the recent General Court judgment HSBC that discussed usefully the difference between anticompetitive exchanges and (infortunate but) competitively innocuous exchanges (in this case between trades - see para. 161 of the judgment).

* 6.8 Section 5 of the HGL on purchasing agreements is

- ☒ Still relevant
- ☐ No longer relevant
- ☐ Do not know

* 6.9 Please explain your reply

Text of 1 to 1500 characters will be accepted

All sections of the HLG are of interest for chemical companies and Cefic.

* 6.10 Section 6 of the HGL on commercialisation agreements is

- ☒ Still relevant
- ☐ No longer relevant
- ☐ Do not know

* 6.11 Please explain your reply

Text of 1 to 1500 characters will be accepted

See 6.9.

* 6.12 Section 7 of the HGL on standardisation agreements is

- ☒ Still relevant
- ☐ No longer relevant
- ☐ Do not know

* 6.13 Please explain your reply

Text of 1 to 1500 characters will be accepted

See 6.9.

7 Coherence (Does the policy complement other actions or are there contradictions?)

* 7.1 In your view, are the HBERs and the HGL coherent with other instruments and /or case law that provide(s) guidance on the interpretation of Article 101 of the Treaty (e.g., other Block Exemption Regulations, the Vertical Guidelines and the Article 101(3) Guidelines)?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 7.2 Please explain

Text of 1 to 3000 characters will be accepted

YES BUT it is sometimes difficult to look also to other rules available. For example: combining the R&D BER and the TT BER. This may be difficult as the R&D BER also contains technology transfer terms. The 2014

TT BER version made the TT BER much more difficult to stay in. We hope that the R&D BER revision will not follow the same trend.

* 7.3 In your view, are the HBERs and the HGL coherent with other existing or upcoming legislation or policies at EU or national level?

- ☐ Yes
- ☐ No
- ☒ Do not know

8 EU added value (Did EU action provide clear added value?)

In this section, we would like to understand if the HBERs and the HGL have had added value. In the absence of the HBERs and the HGL, undertakings would have had to self-assess their horizontal cooperation agreement with the help of the remaining legal framework. This would include for instance the case law of the EU and national courts, the Article 101(3) Guidelines, the enforcement practice of the Commission and national competition authorities, as well as other guidance at EU and national level.

Please indicate whether, in your view, the HBERs and the HGL have had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty

* 8.1 Has the R&D BER had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 8.2 Please explain your reply

Text of 1 to 1500 characters will be accepted

It is very helpful in addressing particular R&D agreements. It provides a fairly easy tool to check whether the terms of R&D agreements should be deemed anti-competitive or not.

* 8.3 Has the Specialisation BER had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 8.4 Please explain your reply

Text of 1 to 1500 characters will be accepted

It is always better to have rules to refer to.

* 8.5 Have the HGL had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

- ☒ Yes
☐ No
☐ Do not know

* 8.6 Please explain your reply

Text of 1 to 1500 characters will be accepted

Certainly, it is a sound document to refer to when analysing potential horizontal cooperation and drafting agreements.

9 Specific questions

Final comments and document upload

9.1 Is there anything else with regard to the R&D and Specialisation BERs and the HGL that you would like to add?

Text of 1 to 3000 characters will be accepted

In general, it would also be helpful to clarify the notion of joint-ventures and undertakings (economic unit). While it is quite clear now in the field of merger control, it would be helpful also to do it when revising these texts (e.g. decisive influence, full function joint-venture, economic unit).

9.2 You may upload a file that further explains your position in more detail or further details the answers you have given

The maximum file size is 1 MB

Only files of the type pdf,txt,doc,docx,odt,rtf are allowed

* 9.3 Please indicate whether the Commission services may contact you for further details on the information submitted, if required
