

Public questionnaire for the 2019 Evaluation of the Research & Development and Specialisation Block Exemption Regulations

Fields marked with * are mandatory.

Introduction

Background and aim of the public questionnaire

Article 101(1) of the Treaty on the Functioning of the European Union ('the Treaty') prohibits agreements between undertakings that restrict competition unless they generate efficiencies in line with Article 101(3) of the Treaty. Agreements generate efficiencies in line with Article 101(3) of the Treaty if they contribute to improving the production or distribution of goods or services, or to promoting technical or economic progress, while allowing consumers a fair share of the resulting benefits; they only impose restrictions that are indispensable for the attainment of these objectives and do not eliminate competition in respect of a substantial part of the product in question. The prohibition contained in Article 101(1) of the Treaty covers, amongst others, agreements entered into between actual or potential competitors (so-called 'horizontal agreements').

Commission Regulations (EU) No 1217/2010 (Research & Development Block Exemption Regulation - 'R&D BER') and 1218/2010 (Specialisation Block Exemption Regulation - 'Specialisation BER'), together referred to as the 'Horizontal block exemption regulations' (or 'HBERs'), exempt from the prohibition contained in Article 101(1) of the Treaty those R&D and specialisation agreements for which it can be assumed with sufficient certainty that they satisfy the conditions of Article 101(3) of the Treaty. The Commission Guidelines on horizontal cooperation agreements ('HGL') provide binding guidance on the Commission for the interpretation of the HBERs and for the application of Article 101 of the Treaty to other horizontal agreements. The HBERs will expire on 31 December 2022.

This public questionnaire represents one of the methods of information gathering in the evaluation of the HBERs, together with the HGL, which was launched on 5 September 2019. The purpose of this questionnaire is to collect views and evidence from the public and stakeholders on how the current rules work for them. The Commission will evaluate the current HBERs, together with the HGL, based on the following criteria:

- Effectiveness (Have the objectives been met?),
- Efficiency (Were the costs involved proportionate to the benefits?),
- Relevance (Do the objectives still match current needs or problems?),
- Coherence (Does the policy complement other actions or are there contradictions?), and
- EU added value (Did EU action provide clear added value?).

The collected information will provide part of the evidence base for determining whether the Commission should let the HBERs lapse, prolong their duration without changing them or prolong them in a revised form, together with the accompanying HGL.

The responses to this public consultation will be analysed and the summary of the main points and conclusions will be made public on the Commission's central public consultations page. **Please note that your replies will also become public as a whole, see below under Section 'Privacy and Confidentiality'.**

Nothing in this questionnaire may be interpreted as stating an official position of the Commission.

Submission of your contribution

You are invited to reply to this public consultation by answering the questionnaire online. To facilitate the analysis of your replies, we would kindly ask you to keep your answers concise and to the point. You may include documents and URLs for relevant online content in your replies.

While the questionnaire contains several questions of a more general nature, notably Section 4 and 5 also contain questions that are aimed at respondents with more specialised knowledge of the HBERs and HGL. We invite all respondents to provide answers to the questionnaire. In case a question does not apply to you or you do not know the answer, please choose the field 'Do not know' or 'Not applicable'.

For your information, you have the option of saving your questionnaire as a 'draft' and finalising your response later. In order to do this you have to click on 'Save as Draft' and save the new link that you will receive from the EUSurvey tool on your computer. Please note that without this new link you will not be able to access the draft again.

The questionnaire is available in English, French and German. You may however respond in any EU language.

In case of questions, you can contact us via the following functional mailbox: COMP-HBERS-REVIEW@ec.europa.eu.

In case of technical problem, please contact the Commission's [CENTRAL HELPDESK](#).

Duration of the consultation

The consultation on this questionnaire will be open for 14 weeks, from 6/11/2019 to 12/2/2020.

4 Effectiveness (Have the objectives of the current HBERs and HGL been met?)

In this section, we would like to have your opinion on the extent to which the HBERs and the HGL have met their objectives.

The **purpose of the EU competition rules** is to ensure that competition is not distorted to the detriment of the public interest, individual undertakings and consumers. In line with this objective, the Commission's policy is to leave companies maximum flexibility when concluding horizontal co-operation agreements in order to increase the competitiveness of the European economy while at the same time promoting competition for the benefit of European businesses and consumers.

The **purpose of the HBERs and the HGL** is to make it easier for undertakings to cooperate in ways which are economically desirable and without adverse effect from the point of view of competition policy. The specific objectives of the HBERs and HGL are to ensure effective protection of competition and providing adequate legal certainty for undertakings.

* 4.1 In your view, do you perceive that the HBERs and the HGL have contributed to promoting competition in the EU?

La section 7 des lignes directrices est un outil permettant de connaître le sens qu'entend donner la Commission européenne à certains termes/certaines notions. Les principes édictés dans ladite section sont en parfaite ligne avec les principes de l'annexe III des accords OTC de l'OMC. Leur respect est une des conditions à remplir pour AFNOR au niveau national et pour être et demeurer Membres des organisations européennes et internationales de normalisation.

Identification of pro-competitive horizontal agreements

The R&D BER and the Specialisation BER set out a number of conditions that R&D and specialisation agreements need to meet in order to benefit from the block exemption. The HGL provide additional guidance on how to interpret these conditions. These conditions have been defined with the purpose to give exemption only to those agreements for which it can be assumed with sufficient certainty that they generate efficiencies that outweigh, in line with Article 101(3) of the Treaty, the harm caused by the restriction of competition.

Based on your experience, have the following provisions in the **R&D BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

* 4.23 The list of definitions that apply for R&D agreements that can benefit from exemption in Article 1 of the R&D BER

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.25 The conditions for exemption listed in Article 3 of the R&D BER, regarding, for instance, access to the final results of the R&D, access to pre-existing know-how and joint exploitation.

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.27 The absence of a market share threshold for non-competing undertakings, the market share threshold of 25% for competing undertakings and the application thereof provided for in Articles 4 and 7 of the R&D BER

* 4.29 The limits regarding the duration of the exemption provided for in Article 4

- ☐ Yes

Based on your experience, have the following provisions in the **Specialisation BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

* 4.35 The definitions that apply for the purposes of the Specialisation BER, in Article 1

- ☐ Yes
- ☐ No
- ☒ Do not know

* 4.37 The explanations on the type of specialisation agreements to which the exemption applies, provided by Article 2 of the Specialisation BER

- ☒ Do not know

4.43 Based on your experience, are there other elements, besides those listed in the previous questions that should have been clarified, added, or removed to improve the guidance given by the BERs?

5 Efficiency (were the costs involved proportionate to the benefits?)

In this section, we would like to have your view concerning the efficiency of the HBERs and the HGL. 6 Relevance (do the objectives still match the needs or problems?)

In this section, we would like to understand if the objectives of the HBERs and the HGL are still up-to-date considering the developments that have taken place since their publication.

La section 7 des lignes directrices est tout à fait en ligne avec l'annexe III des accords OTC de l'OMC. Les principes qui y sont édictés sont des principes dont le respect est une condition sine qua non pour être et demeurer l'organisme de normalisation reconnu au niveau français et Membre des organisations européennes et internationales de normalisation.

7 Coherence (Does the policy complement other actions or are there contradictions?)

*

7.1 In your view, are the HBERs and the HGL coherent with other instruments and /or case law that provide(s) guidance on the interpretation of Article 101 of the Treaty (e.g., other Block Exemption Regulations, the Vertical Guidelines and the Article 101(3) Guidelines)?

- ☐ Yes
- ☐ No
- ☒ Do not know

* 7.3 In your view, are the HBERs and the HGL coherent with other existing or upcoming legislation or policies at EU or national level?

- ☐ Yes
- ☐ No
- ☒ Do not know

8 EU added value (Did EU action provide clear added value?)

In this section, we would like to understand if the HBERs and the HGL have had added value. In the absence of the HBERs and the HGL, undertakings would have had to self-assess their horizontal cooperation agreement with the help of the remaining legal framework. This would include for instance the case law of the EU and national courts, the Article 101(3) Guidelines, the enforcement practice of the Commission and national competition authorities, as well as other guidance at EU and national level.

Please indicate whether, in your view, the HBERs and the HGL have had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty

* 8.1 Has the R&D BER had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

- ☐ Yes
- ☐ No
- ☒ Do not know

* 8.3 Has the Specialisation BER had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

- ☐ Yes
- ☐ No
- ☒ Do not know

* 8.5 Have the HGL had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty?

- ☒ Yes
- ☐ No
- ☐ Do not know

* 8.6 Please explain your reply
