## Introduction

---

### Background and aim of the public questionnaire

Article 101(1) of the Treaty on the Functioning of the European Union ('the Treaty') prohibits agreements between undertakings that restrict competition unless they generate efficiencies in line with Article 101(3) of the Treaty. Agreements generate efficiencies in line with Article 101(3) of the Treaty if they contribute to improving the production or distribution of goods or services, or to promoting technical or economic progress, while allowing consumers a fair share of the resulting benefits; they only impose restrictions that are indispensable for the attainment of these objectives and do not eliminate competition in respect of a substantial part of the product in question. The prohibition contained in Article 101(1) of the Treaty covers, amongst others, agreements entered into between actual or potential competitors (so-called 'horizontal agreements').

Commission Regulations (EU) No 1217/2010 (Research & Development Block Exemption Regulation - 'R&D BER') and 1218/2010 (Specialisation Block Exemption Regulation - 'Specialisation BER'), together referred to as the 'Horizontal block exemption regulations' (or 'HBERs'), exempt from the prohibition contained in Article 101(1) of the Treaty those R&D and specialisation agreements for which it can be assumed with sufficient certainty that they satisfy the conditions of Article 101(3) of the Treaty. The Commission Guidelines on horizontal cooperation agreements ('HGL') provide binding guidance on the Commission for the interpretation of the HBERs and for the application of Article 101 of the Treaty to other horizontal agreements. The HBERs will expire on 31 December 2022.

This public questionnaire represents one of the methods of information gathering in the evaluation of the HBERs, together with the HGL, which was launched on 5 September 2019. The purpose of this questionnaire is to collect views and evidence from the public and stakeholders on how the current rules work for them. The Commission will evaluate the current HBERs, together with the HGL, based on the following criteria:

- Effectiveness (Have the objectives been met?),
- Efficiency (Were the costs involved proportionate to the benefits?),
- Relevance (Do the objectives still match current needs or problems?),
- Coherence (Does the policy complement other actions or are there contradictions?), and
- EU added value (Did EU action provide clear added value?).

The collected information will provide part of the evidence base for determining whether the Commission should let the HBERs lapse, prolong their duration without changing them or prolong them in a revised form, together with the accompanying HGL.

The responses to this public consultation will be analysed and the summary of the main points and conclusions will be made public on the Commission's central public consultations page. **Please note that your replies will also become public as a whole, see below under Section 'Privacy and Confidentiality'.**

Nothing in this questionnaire may be interpreted as stating an official position of the Commission.

### **Submission of your contribution**

You are invited to reply to this public consultation by answering the questionnaire online. To facilitate the analysis of your replies, we would kindly ask you to keep your answers concise and to the point. You may include documents and URLs for relevant online content in your replies.

While the questionnaire contains several questions of a more general nature, notably Section 4 and 5 also contain questions that are aimed at respondents with more specialised knowledge of the HBERs and HGL. We invite all respondents to provide answers to the questionnaire. In case a question does not apply to you or you do not know the answer, please choose the field 'Do not know' or 'Not applicable'.

For your information, you have the option of saving your questionnaire as a 'draft' and finalising your response later. In order to do this you have to click on 'Save as Draft' and save the new link that you will receive from the EUSurvey tool on your computer. Please note that without this new link you will not be able to access the draft again.

The questionnaire is available in English, French and German. You may however respond in any EU language.

In case of questions, you can contact us via the following functional mailbox: [COMP-HBERS-REVIEW@ec.europa.eu](mailto:COMP-HBERS-REVIEW@ec.europa.eu).

In case of technical problem, please contact the Commission's [CENTRAL HELPDESK](#).

### **Duration of the consultation**

The consultation on this questionnaire will be open for 14 weeks, from 6/11/2019 to 12/2/2020.

### **Privacy and confidentiality**

#### **\* 1.1 Publication privacy settings**

The Commission will publish the responses to this public consultation. You can choose whether you would like your details to be made public or to remain anonymous.

##### **Anonymous**

Only your type of respondent, country of origin and contribution will be published. All other personal details (name, organisation name and size, transparency register number) will not be published.

☐ **Public**

Your personal details (name, organisation name and size, transparency register number, country of origin) will be published with your contribution.

Please note that your replies and any attachments you may submit will be published in their entirety even if you chose 'Anonymous'. Therefore, please remove from your contribution any information that you will not want to be published.

## 4 Effectiveness (Have the objectives of the current HBERs and HGL been met?)

---

In this section, we would like to have your opinion on the extent to which the HBERs and the HGL have met their objectives.

The **purpose of the EU competition rules** is to ensure that competition is not distorted to the detriment of the public interest, individual undertakings and consumers. In line with this objective, the Commission's policy is to leave companies maximum flexibility when concluding horizontal co-operation agreements in order to increase the competitiveness of the European economy while at the same time promoting competition for the benefit of European businesses and consumers.

The **purpose of the HBERs and the HGL** is to make it easier for undertakings to cooperate in ways which are economically desirable and without adverse effect from the point of view of competition policy. The specific objectives of the HBERs and HGL are to ensure effective protection of competition and providing adequate legal certainty for undertakings.

\* 4.1 In your view, do you perceive that the HBERs and the HGL have contributed to promoting competition in the EU?

- ☐ Yes
- ☒ Yes, but they have contributed only to a certain extent or only in specific sectors
- ☐ They were neutral
- ☐ No, they have negatively affected competition in the EU
- ☐ Don't know

\* 4.2 Please explain your reply, distinguishing between sectors where relevant: (1500 characters max).

*Text of 1 to 1500 characters will be accepted*

In our view the HGL lacks specific provisions addressing the sustainability topic and promoting undertakings' activities and cooperation on this subject.

For example, the HGL shall expressly contain provisions according to which environmental/sustainability gains can be considered as efficiencies and benefits to be passed on to consumers under Art. 101 (3) of TFUE

***Legal certainty provided by the HBERs and the HGL***

\* 4.3 In your view, have the R&D BER and Section 3 of the HGL on research and development agreements provided sufficient legal certainty on R&D agreements companies can conclude without the risk of infringing competition law?

- ☐ Yes
- ☒ No
- ☐ Do not know

\* 4.4 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

similar with answer no 4.2

\* 4.5 In your view, does the R&D BER increase legal certainty compared with a situation where the R&D BER would not exist but only the HGL applied?

- ☒ Yes
- ☐ No
- ☐ Do not know

\* 4.6 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

In our view, it is essential to maintain the R&D BER considering that the HGL is not binding upon the national competition authorities and courts

- \* 4.7 In your view, have the Specialisation BER and Section 4 of the HGL on production agreements provided sufficient legal certainty on production /specialisation agreements companies can conclude without the risk of infringing competition law?

☐ Yes  
☒ No  
☐ Do not know

- \* 4.8 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

similar with answer no 4.2

- \* 4.9 In your view, does the Specialisation BER increase legal certainty compared with a situation where the Specialisation BER would not exist but only the HGL applied?

☒ Yes  
☐ No  
☐ Do not know

- \* 4.10 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

In our view, it is essential to maintain the Specialisation BER considering that the HGL is not binding upon the national competition authorities and courts

In this section we would like to have your opinion on the extent to which the HGL have provided sufficient legal certainty on horizontal cooperation agreements companies can undertake without the risk of infringing competition law. Please specify your answer according to the different types of horizontal agreements.

- \* 4.11 In your view, have the HGL provided sufficient legal certainty on agreements involving **information exchange** in the sense of Section 2 of the HGL?

☐ Yes  
☒ No  
☐ Do not know

\* 4.12 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

In our view, the HGL lacks on specific provisions addressing the information exchange between undertakings in relations to a Joint Venture. The current provisions on exchange of information do not allow parent companies and even minority shareholders to provide their full contribution in terms of know-how and industrial skills to a joint venture. Moreover, the current HGL does not provide completed coherence with other EU Regulations (for example with REMIT 1277/2011 which imposes certain data transparency obligations)

\* 4.13 In your view, have the HGL provided sufficient legal certainty on **purchasing agreements** in the sense of Section 5 of the HGL?

- ☐ Yes  
☐ No  
☒ Do not know

\* 4.15 In your view, have the HGL provided sufficient legal certainty on **commercialisation agreements** in the sense of Section 6 of the HGL

- ☐ Yes  
☒ No  
☐ Do not know

\* 4.16 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

In our view, the HGL shall take into account the impact of 'new' digital players and markets on the traditional sectors and more specifically address the topic of data commercialisation agreements

\* 4.17 In your view, have the HGL provided sufficient legal certainty on **standardisation agreements** in the sense of Section 7 of the HGL

- ☐ Yes  
☐ No  
☒ Do not know

\* 4.19 In your view, have the HGL provided sufficient legal certainty on **other types of horizontal cooperation agreements** that are currently not specifically addressed in the HGL (for example sustainability agreements)

- ☐ Yes  
☒ No  
☐ Do not know

\* 4.20 Please explain your reply

As preliminary remark, we want to clarify that we do not consider the 'sustainability' as a new type of agreement, but as a goal that can be reached by any agreements already defined in the HGL. Therefore, we propose to complet the HGL with specific provisions in relation to sustainability assessment for each type of agreements.

\* 4.21 In your view, are there other types of horizontal cooperation agreements outside those identified in the current HGL that should have been specifically addressed in order to increase legal certainty?

- ☒ Yes
- ☐ No
- ☐ Do not know

\* 4.22 If Yes, please list those types of agreements and explain your reasons

*Text of 1 to 3000 characters will be accepted*

The HGL shall specifically address new form of cooperation in the digital and data sector (such as Data Pools)

#### ***Identification of pro-competitive horizontal agreements***

The R&D BER and the Specialisation BER set out a number of conditions that R&D and specialisation agreements need to meet in order to benefit from the block exemption. The HGL provide additional guidance on how to interpret these conditions. These conditions have been defined with the purpose to give exemption only to those agreements for which it can be assumed with sufficient certainty that they generate efficiencies that outweigh, in line with Article 101(3) of the Treaty, the harm caused by the restriction of competition.

Based on your experience, have the following provisions in the **R&D BER** allowed to correctly identify the horizontal cooperation agreements that are compliant with Article 101 of the Treaty?

\* 4.23 The list of definitions that apply for R&D agreements that can benefit from exemption in Article 1 of the R&D BER

\* 4.27 The absence of a market share threshold for non-competing undertakings, the market share threshold of 25% for competing undertakings and the application thereof provided for in Articles 4 and 7 of the R&D BER

- ☐ Yes
- ☒ No
- ☐ Do not know

\* 4.28 If No, please explain what aspect of these provisions fails to correctly identify R&D agreements that are compliant with Article 101 of the Treaty

*Text of 1 to 1500 characters will be accepted*

We agree with the provision of a threshold because it provides certainty for undertakings, NCAs and Courts. However, we believe that the current thresholds is to low in case of cooperation between competitors in very innovative R&D projects (especially in the sustainability fields)

4.43 Based on your experience, are there other elements, besides those listed in the previous questions that should have been clarified, added, or removed to improve the guidance given by the BERs?

*Text of 1 to 3000 characters will be accepted*

As we already pointed out, since we consider sustainability as a goal that can be reached by both R&D and Specialisation agreements, we propose to include in the BERs specific provisions addressing the sustainability and promoting topics.

\* 4.44 Based on your experience, are there other types of horizontal cooperation agreements outside those identified in the R&D and Specialisation BERs which would satisfy the conditions of Article 101(3) of the Treaty?

## 5 Efficiency (were the costs involved proportionate to the benefits?)

---

In this section, we would like to have your view concerning the efficiency of the HBERs and the HGL. In your view, do you consider that the costs (for example, legal fees, delays in implementation) of analysing the conditions and applying these instruments is proportionate to the benefits (for example, faster self assessment) of having the rules in place?

### **Costs**

#### \* 5.1 Please describe the different types of costs of applying the current R&D and Specialisation BERs; and the HGL

*Text of 1 to 1500 characters will be accepted*

information is not easily available

#### 5.2 Please explain whether you can express the above costs in money terms

*Text of 1 to 1000 characters will be accepted*

information is not easily available

#### 5.3 Please provide an estimate of your quantifiable costs both in terms of value (in EUR) and as a percentage of your annual turnover (or, in the case of a business association, of the annual turnover of the members you are representing)

*Text of 1 to 500 characters will be accepted*

information is not easily available

#### 5.4 Please explain how you calculate these costs

*Text of 1 to 1500 characters will be accepted*

information is not easily available

5.5 In your view, how have the costs generated by the application of the R&D or the Specialisation BER or the HGL evolved **compared with the previous legislative framework** (Reg. 2659/2000 on R&D, Reg. 2658/2000 on Specialisation agreements and the accompanying horizontal guidelines)?

- ☐ Costs increased
- ☐ Costs decreased
- ☒ Do not know

In your view, would the costs of ensuring compliance of your horizontal cooperation agreements (or the agreements of your members) with Article 101 of the Treaty would be different **if the current HBERs were not in place but only the HGL applied?**

\* 5.8 Were the **R&D BER** not in place, the cost of ensuring compliance

- ☒ Would increase
- ☐ Would decrease
- ☐ Do not know

\* 5.9 Please explain your reply

*Text of 1 to 1500 characters will be accepted*

The HGL is not binding on NCAs and Courts , while the BERs are, therefore provide more legal certainty which results in cost savings

5.10 Please provide an estimate of the possible change in costs and explain your estimation

#### **Benefits vs. costs**

In your view, does the application of the R&D and Specialisation BERs and the HGL generate costs that are proportionate to the benefits they bring (or, in the case of a business association, the benefits for the members you are representing)?

### \* 5.15 Regarding the **R&D BER**

## 6 Relevance (do the objectives still match the needs or problems?)

---

In this section, we would like to understand if the objectives of the HBERs and the HGL are still up-to-date considering the developments that have taken place since their publication.

6.1 Please identify major trends and developments (for example legal, economic, political) that, based on your experience, have affected the application of the BERs and HGL. Please provide a short explanation with concrete examples in case you consider that (parts of) the HBERs or HGL do not sufficiently allow to address them

## 8 EU added value (Did EU action provide clear added value?)

---

In this section, we would like to understand if the HBERs and the HGL have had added value. In the absence of the HBERs and the HGL, undertakings would have had to self-assess their horizontal cooperation agreement with the help of the remaining legal framework. This would include for instance the case law of the EU and national courts, the Article 101(3) Guidelines, the enforcement practice of the Commission and national competition authorities, as well as other guidance at EU and national level.

Please indicate whether, in your view, the HBERs and the HGL have had added value in the assessment of the compatibility of horizontal cooperation agreements with Article 101 of the Treaty
