Dear Madam or Sir,

CLEPA appreciates the approach of the Commission to update and extend the VBER beyond May 2022. Especially with the modified article 4(e) and the inclusion of the distribution of spare parts to wholesalers the most relevant distribution channel for suppliers is now reflected in the revised draft regulation.

Nevertheless, CLEPA would like to encourage the Commission to follow a similar path with the modification and extension of the Aftermarket relevant MVBBER 461/2010 beyond May 2023 to ensure a competitive balance between the authorised and the independent repair channel.

Frank Schlehuber
