

We have read the Action Plan and would like to make the following comments -

We applaud the intention to target aid to where it is needed and hope that companies in Britain will still be able to continue to take advantage of future funding. We work with many SMEs, some of them very small operations making a contribution to the economy and they have benefitted greatly from previous funding to develop enterprises.

We also fully support the desire of the EU to streamline administration and strive for transparency in processes.
