**Review of rules on exemptions for small amounts of aid to services of general economic interest (SGEI de minimis) – Comments from Norway**

Reference is made to the public consultation of 19 April 2023 regarding the review of the rules on exemptions for small amounts of aid to services of general economic interest (HT.6507).

The Norwegian Government supports the proposal of a revised threshold which takes inflations into account, and welcomes the proposal to align certain concepts in the SGEI de minimis Regulation with the general de minimis Regulation.

Yours sincerely

Marie Wiersholm (b.a.)  
Deputy Director General

Mari Løvhaug  
Adviser
