Re.:

Targeted review of the General Block Exemption Regulation (State aid): extension to national funds combined with certain Union programmes

Hereby, we would like to take the opportunity to comment on a Targeted Review of GBER. We are proposing a revision of point 4 of Art.20 of GBER in the direction to apply single aid intensity applicable to the partners falling under GBER, which is equal to the programme co-financing rate established by the ETC Regulation.

Sincerely yours,

Michal Blaško
Director
Department of Transnational Cooperation Programmes
Government Office of the Slovak Republic
