

Hello  
Nadine Ramade

To ask the European Commission to amend the regulatory framework allowing public authorities to support organic farming outside CAP aid. In particular, by including aid to maintain AB in the list of aid exempted from prior notification and validation by the European Commission. If AB is included in this list of exempted aid, local authorities that wish to do so (no obligation) will have the legal basis to do so, without having to make considerable efforts to notify aid to the Commission (notification made by Eau de Paris)

In the context of abolishing the BAM in the CAP 2023-2027, the challenge is to facilitate the return of possible support for organic maintenance or the financing of an organic ESP by local authorities or authorities.
