

Competition enforcement in antitrust and cartels

Since the start of this mandate (December 2019), the Commission has adopted 26 final decisions in antitrust and cartels*, levelling EUR 2,173.895 billion in fines and accepted commitments putting an end to anti-competitive practices in 6 cases. Furthermore, the Commission also opened 13 new investigations, adopted 8 Statements of Objections and issued the preliminary results of its enquiry into the sector of Internet of Things (IoT) for consumer-related products and services. Antitrust enforcement covers many sectors of the economy (pharmaceuticals, energy, financial services, transport, digital markets, etc...).

*2 of these were re-adoption decisions
