

EU MERGER CONTROL

Interventions from December 2019

Since December 2019, 42 transactions were approved with remedies (of which 32 were cleared in Phase 1 and ten after an in-depth Phase 2 investigation). Remedies can be structural (such as full divestments), quasi-structural (e.g. data silos) or behavioural (such as access or interoperability conditions). Only one transaction was approved in Phase 2 without remedies, and seven transactions were abandoned while under in-depth review, three of which after a Statement of Objections had been issued. Two proposed transactions has been prohibited.
